LA FONDATION LUCIEN-PICHÉ

2020 Scholarship Program

The **Fondation Lucien-Piché** is a non-profit charitable organization that was created in 1987 after the passing of Professor Lucien Piché, a chemistry Professor who was the first secular person to occupy a Vice-President position at the Université de Montréal. The Foundation's mission is to encourage undergraduate chemistry students from Québec universities by awarding merit scholarships. The Foundation is a non-profit charitable organization that is managed by a board of directors composed of university Professors, researchers and professionals from the field of chemistry. All members of the board of directors are volunteers. The funds raised and administered by the Fondation are entirely used to support students via scholarships and to cover the operation and maintenance costs. Since its creation in 1987, the Fondation Lucien-Piché awarded close to 120 scholarships for a total of more than 100,000\$. Many of our awardees now occupy leading positions in academia and industry in the province of Québec and abroad. The Foundation is sponsored by 10 companies that are based in Quebec, Canada and USA operating in various fields of chemistry.

Zahra Mammasse

**Bourse Lucien-Piché/NuChem
Therapeutics**

Zahra is studying Chemistry at the Université de Québec à Montréal.

She received an NSERC undergraduate student research award on two occasions. She is also co-author of an article published in the *Journal of Organic Chemistry*. She will begin a Masters' program in January 2021.

Zahra is also a volunteer at the Old Brewery Mission and at La Maison de la Famille.

Laurie Carrier

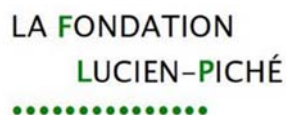

Bourse Lucien-Piché

Laurie is studying Chemistry at Université Laval.

She received an NSERC undergraduate student research award on two occasions. She is also first author of an article published in the *International Journal of Quantum Chem.*

Laurie was a volunteer for the Coupe de Science 2020.

Kwan Ming Tam

Bourse Lucien-Piché/Gilead

Kwan is studying Chemistry at Concordia University.

He is the 2020 Chemistry co-op student of the year and co-author of a scientific article published in *Chemical Communications*. and has presented his work at a Gordon Research Conference in Hong Kong in 2019.

Kwan has been a volunteer at the Brossard Chinese School since 2014.

Jenny Oh

**Bourse Lucien-Piché/Corealis
Pharma**

Jenny is a Chemistry student at McGill University.

She received an NSERC undergraduate student research award on two occasions and received the Ekler Chemistry scholarship. She has participated in summer research projects on four occasions.

Jenny has been a volunteer with a video game company, Otaku Heroes, and the Sarang Church of Montreal.
